

E-data

A Simple, Practical Way to
Capture System-Specific
Data Quickly, Securely ...
and Digitally

Get your data out of paper log sheets and into a secure, cloud-based database. E-data enables you to track, trend and leverage your system data to ensure optimal performance and provides the visibility you need to take proactive corrective action.

VIEW YOUR SYSTEMS

Gain visibility to systems not connected to meters, controllers or probes

DIGITIZE YOUR DATA

Capture and record data from your mobile device anywhere, anytime - even offline

PROTECT YOUR ASSETS

Proactively identify risks by triggering notifications for results outside of preset limits

VALIDATE YOUR RESULTS

Manually capture data to compare results and or to calibrate automated systems
