

Efficiency in Investment Casting

3D TRASAR™ Technology for Shell Control leverages Rheonics SlurrySense™ technology to enable real-time insights, precise control and enhanced stability in shell building. This innovation drives consistency, efficiency and superior casting quality.

3D TRASAR™

Advanced monitoring and management for **consistent slurry performance and reliable data.**

SlurrySense™

Self-cleaning sensor with **CleanWave™** technology for continuous, **accurate** viscosity and density monitoring.

3D TRASAR™ Technology for Shell Control

Advanced systems **support**
slurry consistency

Automated slurry
measurement and
data collection

Global enterprise
visibility

Helps minimize
downtime and
unplanned maintenance

24x7x365 **online**
monitoring

Featuring SlurrySense™
technology from

rheonics

Inline, **real-time**
monitoring

Accurate density
and viscosity data

Groundbreaking
self-cleaning sensor

Reliable across **harsh**
environments

The value of our new slurry control technology in your process

Consistently stable
slurry conditions

Helps minimize
operational issues,
keeping it running
smoothly

Optimize operating
costs through
real-time monitoring
and treatment

Confidence in
data-driven
process stability
and efficiency
