

AdvaCare™ Disinfectant

EPA-REG. #1677-193

NEW

**NOW EFFECTIVE AGAINST
SARS-CoV-2, THE VIRUS THAT CAUSES
COVID-19 AND THE MONKEYPOX VIRUS**

**As an Extension of The Healthcare Operation, it is
Crucial That You Disinfect Your Customer's Linen.**

Hospital linens can be the source of many pathogens that can cause illness. Help protect patients and your customers.

ECOLAB®

THE CDC STATES
THAT EACH YEAR

1.7 MILLION HAIs

OCCUR IN
US HOSPITALS

Your Customers Worry About...

- ▶ PROTECTING PATIENTS
- ▶ REDUCING HEALTHCARE-ASSOCIATED INFECTIONS (HAIs)
- ▶ UTILIZING SOLUTIONS EFFECTIVE AGAINST EMERGING PATHOGENS
- ▶ PROTECTING THEIR BRAND

Per the Centers for Disease Control and Prevention (CDC), of all the surfaces in a hospital a patient has the greatest degree of contact with their gown and the bed linens. Disinfecting these linens in your wash process helps ensure the linens are free of potentially harmful microorganisms.

Patient Safety Starts in the Laundry

Your customers take all measures necessary to prevent and limit the spread of HAIs and emerging pathogens. As an extension of their operation, YOU CAN HELP. CDC guidance is to process healthcare linens at 160°F for 25 minutes, which can be difficult to achieve. An alternative method is to utilize an antimicrobial chemical intervention, such as AdvaCare Disinfectant, allowing lower temperature and shorter contact times.

The AdvaCare Disinfectant Difference

AdvaCare Disinfectant is an EPA-registered laundry disinfectant oxidizer with kill claims against eleven microorganisms¹ of concern on healthcare linen, including *C. difficile*; the number one U.S. healthcare-associated infectious microorganism. Now with an emerging pathogen claim, AdvaCare Disinfectant is effective against SARS-CoV-2, the virus that causes COVID-19 and the Monkeypox Virus. and outperforms chlorine and peroxide for disinfecting, whiteness, extending linen life, sustainability and overall effectiveness.

Set Your Laundry Apart

Stand out as the premier laundry destination in town. Using AdvaCare Disinfectant in the wash aisle shows you're going above and beyond for your customers and their patients. You'll be seen as a valued and trusted partner for patient safety.

AdvaCare Disinfectant is the most comprehensive EPA-registered laundry concentrate available for textiles.

Go beyond wash aisle disinfection with the triple protection of ProTEX PLUS. Talk to your Ecolab representative to learn more.

- ▶ EFFECTIVE AGAINST SARS-COV-2, THE VIRUS THAT CAUSES COVID-19 AND THE MONKEYPOX VIRUS
- ▶ PROVEN COMPLETE KILL
- ▶ HELPS PREVENT CROSS-CONTAMINATION IN WASH WATER
- ▶ POWERFUL STAIN REMOVAL
- ▶ EFFECTIVE DISINFECTION AT ≥ 140F FOR ≥ 5 MINUTES¹

¹AdvaCare™ Disinfectant is an EPA-registered laundry disinfectant which is utilized in the wash process as an antimicrobial intervention and allows you to disinfect healthcare linens at temperatures as low as 140°F for 5 min. AdvaCare™ Disinfectant has kill claims for Staphylococcus aureus, Klebsiella pneumoniae, Pseudomonas aeruginosa, Acinetobacter baumannii, Escherichia coli O157:H7, Listeria monocytogenes, Methicillin - Resistant Staphylococcus aureus (MRSA), Community-associated Methicillin-Resistant Staphylococcus aureus (CA-MRSA), Salmonella enterica, HIV-1 (AIDS) Virus, Carbapenem - resistant Klebsiella Pneumoniae (KPC), Enterococcus faecalis - VRE, Clostridium difficile. Follow EPA label guidance for time, temperature and concentration requirements. The Clostridium difficile claim is currently being reviewed by the state agencies including the California Department of Pesticide Registration (CDPR).
