

WHEN YOU HAVE A **MILK QUALITY** PROBLEM,
ECOLAB IS THERE.

We're here to help with more **dedicated service experts** than anyone else.

You run a smart business,

working to run a productive operation while keeping herd health, milk quality, and profitability top of mind. That means you need to be ready to tackle any number of problems – 24 hours a day, 7 days a week.

OUR TEAM DELIVERS:

IMPROVED MILK QUALITY

Your personal service representative works **on-site**, helping you operate to your high standards. In addition to our cleaning, sanitizing, animal hygiene, and specialty products, you can expect no-nonsense support:

OPTIMIZED CIP PERFORMANCE

- 
- Custom solutions based on decades of CIP and udder health experience
 - Troubleshooting assistance for even the most unique challenges
 - Support from a world-class team of scientists and experts

Think your milk quality
ambitions are out of reach?
Think again.

UDDER HYGIENE SOLUTIONS

Our extensive line of iodine and non-iodine teat dips are complete with robust efficacy testing. Our service experts will help you implement a mastitis prevention program to enhance milk quality.

Complete
line of
NPE-free
teat dip
products

Solutions offer **FAST KILL,** are
EASY TO USE, and affordable

CIP SOLUTIONS
