

Ecolab® Disinfectant 1 Wipe – with plastic-free wipes¹

Get the most out of your wipe with F.A.S.T

FOLD
The Wipe

It can be helpful to fold
XL-size wipes, especially
when cleaning large
surfaces.²

Apply
Pressure

With your palm and
fingers, apply good
pressure while wiping
the surface to release
disinfectant from the
absorbent wipe.

Saturate
the Surface

Wet the surface until
visibly saturated.

Time
to disinfect

Keep the surface wet
for the 1-minute
contact time to
effectively disinfect.¹

“has insane surface coverage” Healthcare Technician³

1. Wipe material is plastic-free (packaging made of plastic: canister, soft-pack, bucket, refill bag), and is a USDA Certified Biobased Product (wipe material is 96% biobased). EPA Reg. No. 1677-263. Kills 40+ organisms in 60 seconds and kills *C. auris* and *T. interdigitale* in 75 seconds (refer to label for organism listing). Refer to product label for use directions. Biobased claim does not imply the safety of the product. Users must read and follow all label instructions.

2. Per CDC guidance, regularly rotate and unfold the wipe to use all sides (CDC Best Practices for Environmental Cleaning in Global Healthcare Setting, March 19 2024).

3. Blinded healthcare worker research. Healthcare workers were compensated for their time, but did not know Ecolab was the study sponsor. Brand labels were hidden or removed from packaging during the testing.

4. Based on DRG 2023 healthcare disinfecting wipes sales data at the individual SKU level. Multiplying the total wipes sold by SKU x the wipe length of the individual SKUs. Divided the total length by the circumference of the earth.
