

LODGING

Your partner to help create clean, healthy spaces across your property

Helping deliver a higher level of clean for a higher level of
guest satisfaction

ECOLAB[®]

Together, advancing hotel operations

Create healthy, inviting spaces to help attract and retain guests and staff

Designed to improve productivity and efficiency to save labor time and cost

Advance your sustainability goals with solutions designed to reduce environmental footprint^{1,2}

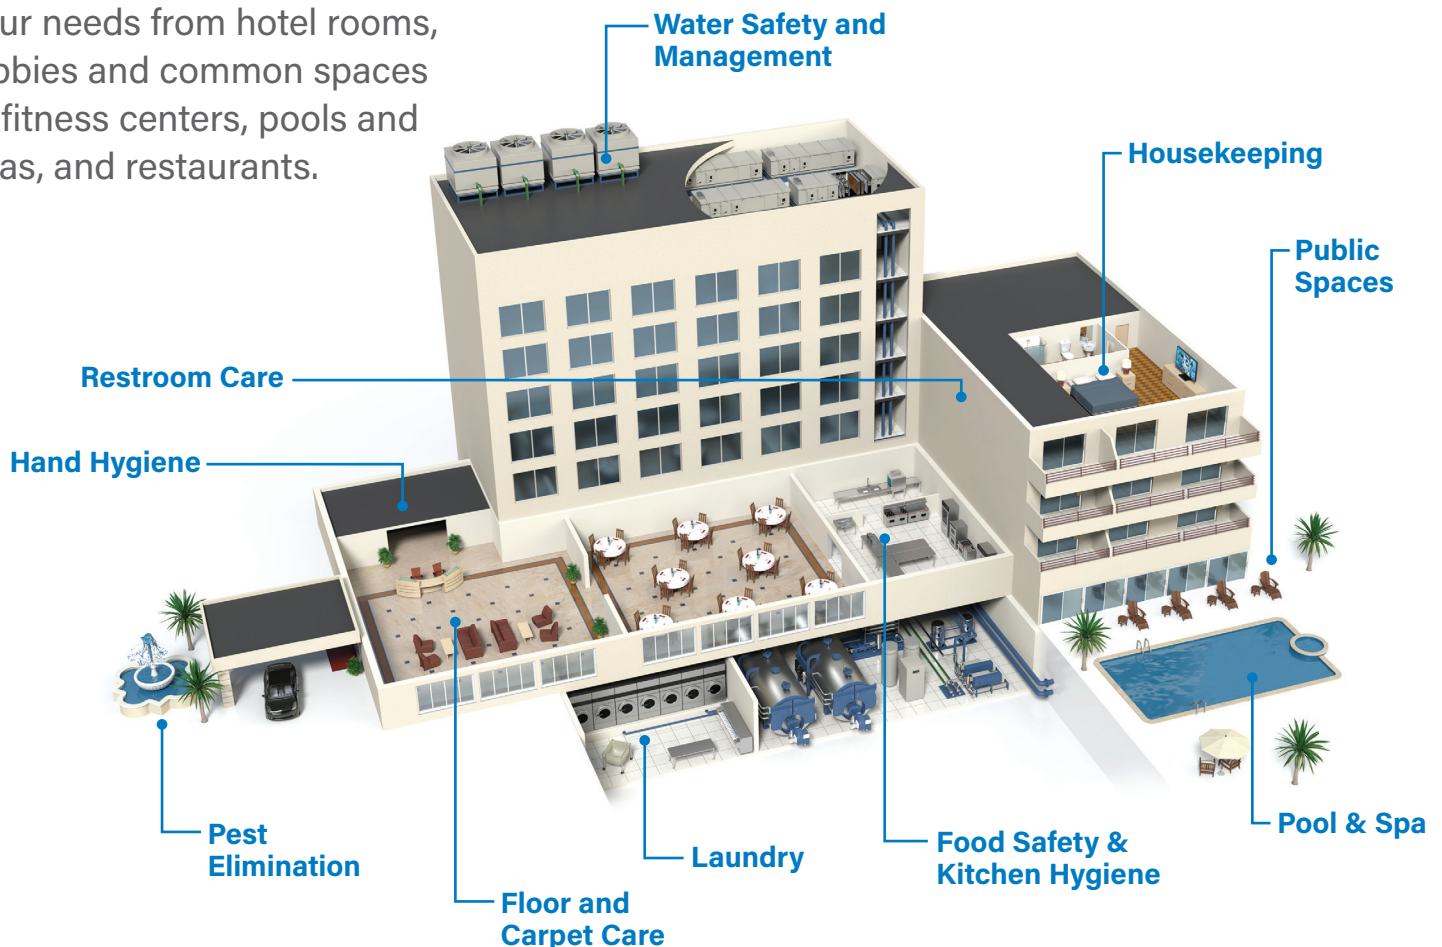

67% of guests ranked

room cleanliness as the top reason they'd leave a negative review.³

52% of guests indicated

no odor or a pleasant fragrance would indicate a hotel room is clean.³

Science-based solutions for your needs from hotel rooms, lobbies and common spaces to fitness centers, pools and spas, and restaurants.

¹ Packaging waste and freight calculations based on a 1:10 dilution ratio for Nexa Concentrates compared to standard 750 mL packaging. The Nexa Concentrates reusable packaging can be proactively refilled compared to the standard 750 mL packaging.

³ Data from November 2023 survey of 549 consumers conducted by third-party research vendor on behalf of Ecolab.

A comprehensive lodging program

Innovative chemistry, employee training, and expertise and guidance.

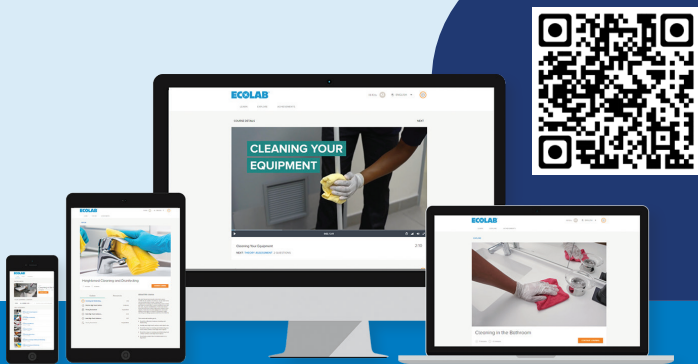

On-Demand Digital Training

Short-training videos accessible to employees anytime, anywhere on any device

The task specific employee training videos and corresponding knowledge assessments help:

- Simplify the process of critical hygiene protocols
- Accelerate on-boarding
- Optimize operations
- Improve compliance

Housekeeping program

Boost guest satisfaction and create pleasant experiences for your housekeepers

- Cleaning and disinfection solutions
- Deliver streak-free performance on glass, windows and mirrors
- Neutralize tough odors with long-lasting fresh scents

Laundry Program

Designed to increase operational efficiency with a comprehensive, on-premise laundry program

Help protect your linen investment and drive efficiency with:

- Hardworking, hygienically clean laundry programs
- Stain management solutions
- Simple to use and color-coded chemistry to enable staff safety and efficiency

Food Safety, Kitchen and Warewashing

Delight your guests and help deliver clean and safe environments

Warewashing programs and kitchen hygiene solutions designed to:

- Reduce rewash and labor efforts
- Save time, water and energy
- Achieve results that shine
- Promote food safety outcomes

Our proactive solutions go beyond daily operations

Pool and Spa Management

A comprehensive program to help meet all pool and spa needs

Pest Elimination

A proactive, science-based approach to help keep pests out of your operations

Water Quality Management Solutions

Filtration solutions designed for maximum safety and efficiency

Floor Care

Solutions that help you keep your floors gleaming all day

Ecolab Science Certified™

A comprehensive, science-based public health and food safety program, designed with operational efficiency in mind, to help deliver a higher level of cleanliness and confidence.

A comprehensive partnership to help protect guests, staff, and your resources

Clean

Helping you deliver clean, healthy spaces and exceptional experiences that inspire staff and student performance.
