- Faster resolution to minimize business disruption

CUSTOMER SUCCESS STORY

97% Pest Free

$7M Labor Savings

Brand Protection

*Based on Ecolab and customer data

ECOLAB®

PROTECTING WHAT'S VITAL™

Empowering Your Business Beyond Pest Control

Our integrated approach means threats are detected and resolved faster, recurrences are minimized and prevention is stronger, all at an optimized cost.

With real-time insights, actionable reporting and service protocols tailored to your business, Pest Intelligence doesn't just keep you pest free—it empowers you to run your business with confidence, resilience and peace of mind.

Smart, Connected Equipment

- **Real-time, sensor technology** provides 24/7 monitoring on a secure, private network
- **Discreet, proprietary equipment** can be placed in common hot spots even out of reach
- **Data and time stamps** support targeted treatment and root cause analysis

Dynamic, Onsite Service & Response

- **Prescriptive protocols** deliver targeted, efficient treatments
- **Root-cause analysis** ensures long-term prevention, not just quick fixes
- **Expert-driven strategies** adapt to evolving pest pressures
