

FLOOR CARE

Polished Concrete and Terrazzo Program

A dedicated, comprehensive cleaning and maintenance program that restores, cleans, and maintains beautiful floors

Partnering to clean and protect
for your success

ECOLAB[®]

Based on the condition of your floor, choose the solutions that are right for you

Help protect your investment with the proper products, equipment, and procedures to maintain the look of your polished concrete.

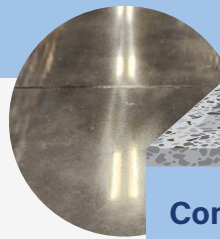

Daily Floor Care

✧ Clean and Maintain

- Clean and harden the surface with Daily Cleaner Densifier designed for concrete and terrazzo
- The daily Diamond Impregnated Pad helps maintain shine during the daily cleaning process

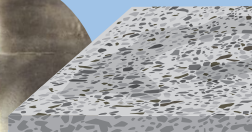

STEP 1

Autoscrub with a green daily pad or use a mop with Daily Cleaner Densifier

Condition

- Minimal wear
- Good gloss

Interim Floor Care

✧ Protect

Select one of two products to aid in stain protection:

Impregurator

Penetrating sealer for stain prevention (no added gloss)

Guard

Surface protectant for stain and etch protection (adds gloss)

STEP 1

Scrub with increasing strength of Diamond Impregnated Pads up to desired grit or shine

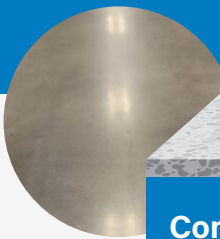

STEP 2

Apply Guard or Impregurator

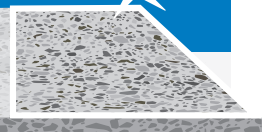

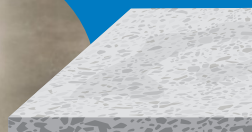

STEP 3

Autoscrub with a daily Diamond Impregnated Pad or use a mop with Daily Cleaner Densifier

Condition

- Minimal wear
- Minimal gloss

Restorative Floor Care

✧ Light Restoration

Using the Diamond Impregnated Pads on an autoscrubber, progressively raise the gloss level of the floor from a flat concrete look to a high, glass-like shine.

STEP 1

Scrub with increasing strength of Diamond Impregnated Pads up to desired grit or shine

STEP 2

Apply Guard or Impregnator

STEP 3

Autoscrub with a daily Diamond Impregnated Pad or use a mop with Daily Cleaner Densifier

Condition

- Excessive wear and staining
- No gloss

✧ Deep Restoration

- Metal bond diamonds are used to prep extremely worn surfaces by cutting through residual coatings and excessive wear
- Resin bond diamonds hone the floor to prepare for polish
- Nanoparticle densifier penetrates the surface to harden stone

STEP 1

Grind with metal bond diamonds

STEP 2

Hone with resin bond to desired grit

STEP 3

Apply Densifier

STEP 4

Scrub with Diamond Impregnated Pads up to desired grit or shine

STEP 5

Apply Guard or Impregnator

STEP 6

Autoscrub with a daily Diamond Impregnated Pad or use a mop with Daily Cleaner Densifier

Condition

- Floor finish
- Residual glue
- Rough concrete

Expertise and training to support your team

- **On-Demand, task-based digital training** to help accelerate on-boarding and improve retention with interactive content
- **On-site training** and expert support
- **Help increase safety** and improved compliance with critical cleaning procedures

Comprehensive solutions specifically designed for polished concrete and terrazzo care that deliver clean and protected spaces.

Polished Concrete and Terrazzo Solutions

PRODUCT	DESCRIPTION	PACK SIZE	ITEM #
 Concrete & Terrazzo Daily Cleaner Densifier	Specialized alkaline cleaner for polished concrete and cement-based terrazzo that both cleans effectively and hardens the surface for better durability. Low-foaming for autoscrubber use.	1 - 2.5 gal	6102606
 Concrete & Terrazzo Densifier	Nano-based hardener that helps to strengthen, protect, and reduce dusting on concrete and terrazzo floors. Dilutable chemistry with low surface tension for ease of substrate penetration.	4 - 1 gal	6102479
 Concrete, Terrazzo & Stone Impregnator	Penetrating sealer that helps protect polished concrete, terrazzo, natural stone and grout lines from water and oil-based stains. UV and weather-resistant for indoor and outdoor use.	4 - 1 gal	1112776
 Concrete & Terrazzo Guard	Advanced sealer that helps deliver chemical, stain, etch and scratch resistance to polished concrete and terrazzo floors. Boosts gloss with minimal application effort and fast cure time for quick floor turnaround.	4 - 1 gal	1112825
 Concrete & Terrazzo Diamond Impregnated Pads	High-quality diamond impregnated pads for daily autoscrubber use that help clean and maintain polish of floors.	Scan code to view sizes	

Ancillary Solutions

PRODUCT	DESCRIPTION	PACK SIZE	ITEM #
 Stone MAXX Machine	Designed for the restoration and maintenance of natural stone, terrazzo, ceramic, and concrete surfaces. Machine is available in 13" and 17" sizes. Weights sold separately.	1 - 13"	92032248
		1 - 17"	92032247
 Stone MAXX Weight Kit	Weight packs	2 - 25 lbs	92032249
 Metal Bond Diamonds	Metal bond grinding tools for aggressive concrete grinding, coating removal, and surface prep.	1 - 60 grit	TBD
		1 - 100 grit	TBD
		1 - 200 grit	TBD
 Galaxy Diamonds	Resin tooling to hone surfaces and remove metal bond scratched prior to pad polishing.	1 - 60 grit	92032064
		1 - 120 grit	92032065
		1 - 220 grit	92032066
 Natural Blended Pad	Burnish pad that combines natural hair and synthetic fibers to provide a "wet-look" appearance on guards. Works best on machines up to 3000 rpm.	Scan code to view sizes
