

Everywhere It Matters.™

NEXA™: Handcare Dispensing Program
EFFECTIVE PERSONNEL HAND HYGIENE FOR
A SCIENTIFIC CLEAN.

WHY FOCUS ON HAND-WASHING?

89% OF OUTBREAKS

are due to food contaminated by food workers.¹

95% OF PEOPLE

don't wash their hands adequately.²

THREE DAYS

is the amount of time some germs can live on moist surfaces.³

Nexa™ Dispensers

Tested. Inspected. Trusted.
That's a Scientific Clean

The Nexa™ Hand Hygiene System creates a Scientific Clean™ by combining state-of-the-art connected dispensers with any needed Ecolab hand hygiene product.

- **Proprietary packaging system** delivers consistent, accurate dispensing
- **Easy to access and load** product with low and high dose settings
- **Dispenses liquid and foam** products for streamlined purchasing and inventory
- **Clear side window** provides easy usage monitoring and visible expiration date
- **Indicator light** monitors battery life
- **Easily accessible battery pack** requires no tools access for quick and simple changes
- **Universal cartridge** works in both manual and touch-free systems
- **Dispenser badges** for easy product identification

52%
FEWER BATTERIES

USE FEWER BATTERIES

Energy saving touch-free dispenser requires fewer battery change-outs.⁴

PUSH BAR PROTECTION

Antimicrobial works continuously to inhibit growth of bacteria⁵ that may affect the push bar. Smooth surface, no ridges or openings to collect debris or grime.

99%
OF PRODUCT

OPTIMIZE PRODUCT USE

Improved and uniquely designed packaging and collapsible bottle evacuates up to 99% of product to reduce product waste.

PREVENT COSTLY WASTE

Patented pump pulls excess product back in, reducing costly product clogs and drips and helps prevent potential slips and falls.

³ <http://msutoday.msu.edu/news/2013/eww-only-5-percent-wash-hands-correctly/>

⁴ Over the course of 21 months at 50 activations per day, in comparative testing using Ecolab's Nexa Touch-Free dispenser and leading competitor's dispenser.

⁵ Bacteria, mold and mildew that can cause degradation.

Introducing Ecolab's Nexa Concentrates System

Reach your operational sustainability goals. Nexa Concentrates' product packaging is designed to reduce packaging waste by up to:

REDUCE WASTE

- 90% Plastic Reduction¹
- 75% Cardboard Reduction
- 90% less weight/freight
- Almost no product waste

IMPROVE OPERATIONS

- Scheduled Refills
- Eliminate risk of product outages and waste
- Product Savings

The Nexa Concentrate Advantage

Nexa Concentrates' refillable bottle feature a sealed system and in-chemistry preservatives to ensure an effective application time-after-time.

SIMPLE OPERATION

Keep it simple. Just dock the Nexa Concentrates bottle and push the button to fill.

PREVENT PRODUCT ABUSE

Keyed entry to the concentrated product docking station prevents abuse.

PRODUCT LEVEL VISIBILITY

Ensure that plenty of product is still available with viewing window displaying concentrated product.

CLOSED LOOP DISPENSING

Refillable bottles feature a lock out fitment that only opens when connected to the Nexa Concentrate refill station

A full line of concentrated hand hygiene products available:

- Antibacterial Foam Hand Soap
- Foam Hand Soap
- Foam Hand Sanitizer
