

# Hi-Temp Griddle Cleaning Tools

Remove burnt-on food soil from hot griddle surfaces quickly and safely with the Ecolab Griddle Cleaning Tools Program.

## Hi-Temp Griddle Tools Features:

- ◆ Ergonomic handle design provides additional leverage needed to scrub the griddle surface and remove tough carbon buildup
- ◆ Long handle keeps hands away from the hot griddle, reducing risk of burns
- ◆ Squeegee / scraper quickly and easily removes cleaning liquid and grime from griddle after cleaning
- ◆ Heat tolerance of up to 450°F

# Hi-Temp Griddle Cleaning Tools

## ECOLAB GRIDDLE CLEANING KIT

Remove burnt-on food soil from hot griddle surfaces quickly and safely with the Ecolab Griddle Cleaning Kit.

Contents include:

- ▲ One Griddle Polishing Pad Holder
- ▲ One Griddle Squeegee
- ▲ 10 Griddle Polishing Pads

## ECOLAB GRIDDLE POLISHING PAD HOLDER & PADS

- ▲ Ergonomic design with an extended reach keeps employees at a safe distance from heat
- ▲ Reaches the front, back sides and beveled edges of 2-platen and 3-platen grills
- ▲ Lightweight and durable with a heat tolerance of up to 450°F
- ▲ 4" x 5" griddle polishing pad snaps securely in place
- ▲ Single griddle polishing pad can be used for multiple grill cleanings; rinse after each use
- ▲ Griddle polishing pads come in a box of 10 replacement pads

## GRIDDLE SQUEEGEE

Heat-resistant squeegee helps remove griddle cleaner after grill has been properly cleaned.
