

CLEANROOM

THE WIPES RANGE FOR CLEANROOM APPLICATIONS

Product recommendations for life sciences manufacturers

North America **Klerwipe™** Cleanroom Wipes Portfolio

Ecolab offers wipes for all areas in the cleanroom, from critical control surfaces/areas, floors, walls and small surfaces.

Klerwipe™ Pouch Wipes

Klerwipe™ Sterile Mop Wipes

Klerwipe™ Sterile Dry Wipes

Added Value of Klerwipe™ Cleanroom Wipes

INCREASE PRODUCTIVITY

Ready-to-use pre-saturated means less time spent spraying and wiping, and fewer items to transfer into your cleanroom. Operators are ready to start as soon as the package is opened.

REDUCED CONTAMINATION RISK

Presaturated wipes help ensure consistent application to surfaces, enhancing surface coverage. Greater surface coverage helps reduce the risk of missing contamination on surfaces.

FIT FOR PURPOSE

Each cleanroom classification can call for different quality standards. Ecolab offers sterile wipes for high-grade cleanrooms & non-sterile for lower grade or non-classified areas. Ecolab also offers a variety of pack sizes to help make efficient choices and reduce waste.

Klerwipe™ Pouch Wipes

Our ready-to-use pouch wipes are presaturated to aid consistent, controlled application. Our wipe offering includes water of the appropriate quality, double or triple bagged and non-sterile or sterilized by gamma irradiation options.
