

3D TRASAR™ TECHNOLOGY:

Good for Water.
Good for Business.

ECOLAB® | **NALCO** Water

BEGIN →

Water is a Powerful Force in a Business' Operations.

However, it poses great challenges:

- + Inconsistent Quality
- + Susceptible to Contamination
- + Difficult to Monitor and Manage
- + Decreasing Supply / Scarcity
- + Stringent Industry Demands

= Inefficiency, Waste, Hazards and Expense

With 3D TRASAR™ Technology, you can harness the power of water to achieve your goals.

WE OPTIMIZE AND REDUCE YOUR:

Water Use

Risks

Costs

SO YOUR OPERATION CAN GROW MORE:

Efficiently

Reliably

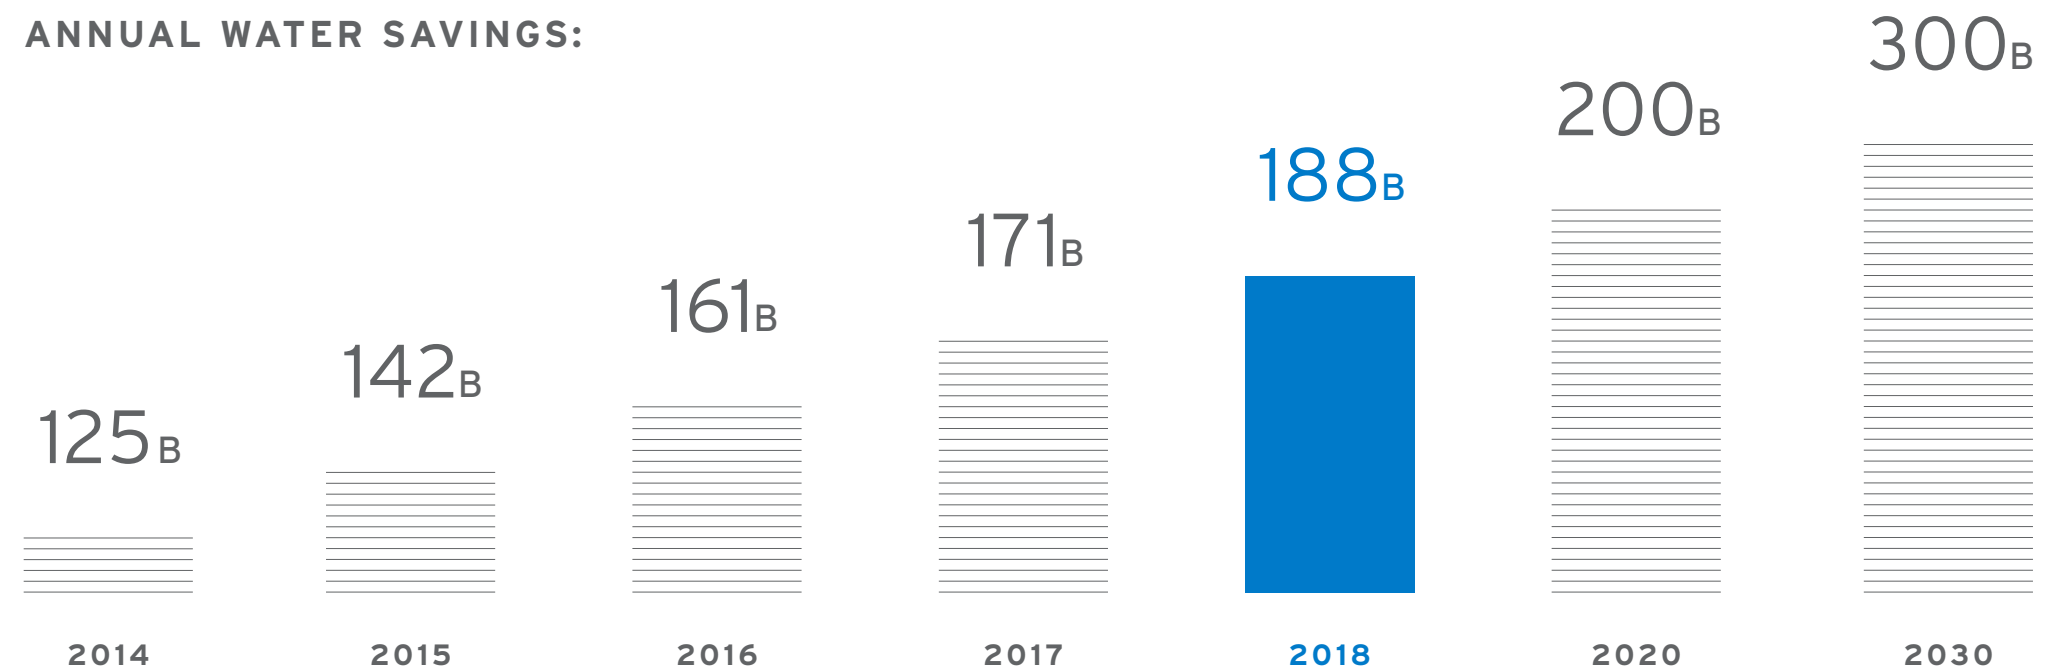

Profitably

3D TRASAR also preserves water for our planet. Our ambition is to save 300 billion gallons by 2030.

ANNUAL WATER SAVINGS:

3D TRASAR™ Technology Overview

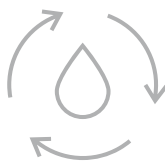

3D TRASAR

The world’s most comprehensive and advanced water performance system.

OUR SMART TECHNOLOGY:

Detect, Determine,
Deliver

3D TRASAR
Controller

SMART
CONTINUOUS
CONNECTED

Detect, Determine, Deliver

The reliable and connected 3D TRASAR controllers detect system upsets and determine needed corrective action, to deliver exceptional performance.

DETECT

System variability and operational problems with world class automation and 24/7 monitoring.

DETERMINE

Corrective actions needed based on proprietary chemical control algorithms.

DELIVER

Improved results that drive optimal performance and savings.

3D TRASAR Controller

Our advanced 3D TRASAR controller collects real-time data for key operating parameters that act as leading indicators of system performance.

With over 40,000 units worldwide and over 15 years of continuous innovations, it is the industry standard for feed, control and monitoring technology.

Connected Chemistry

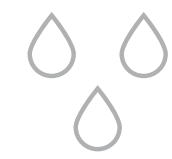

Chemistry

Custom-fit chemistry, selected and fed to meet your system's needs.

OUR CONNECTED CHEMISTRY:

Continuous System Monitoring

Consistent Water Quality

VISIBLE
CUSTOM-FIT
CONNECTED

Continuous System Monitoring

Our connected chemistry provides superior control, automated responses and actionable insights to deliver exceptional results.

OUR CONNECTED CHEMISTRY CONTINUOUSLY MONITORS:

Total System Performance

Water and Energy Use

Your Key Performance Metrics

Consistent Water Quality

Level out the peaks and valleys of incoming water quality to ensure operational consistency and reliability.

OUR CONNECTED CHEMISTRY MONITORS AND OPTIMIZES EVERY ASPECT OF YOUR WATER:

Conductivity

pH Levels

Turbidity

Flow Rates

Corrosion

Scaling Potential

Extensive Expertise

Expertise

Behind every Nalco Water customer is an unparalleled team of professionals.
