

YOUR DEDICATED FUMIGATION EXPERTS

Specialty Pest Services
for Imports and Exports

Ready to tackle any challenge

Ecolab Specialty Pest Services has the experienced and licensed experts to help you protect goods, meet the unique requirements of global trade, and prevent pest problems from interrupting your operations.

Deep regulatory experience

Your fumigation specialists handle all licensing and permitting, delivering services that meet EPA, USDA, APHIS and other regulatory standards to obtain the certificates you need.

Responsive service capacity

Our nationwide footprint – including all major U.S. ports – means Ecolab-employed, trained and licensed fumigation specialists are ready and on-call when you need them.

Science-based expertise

Your fumigation specialists bring science-based pest elimination insights, supported by the full breadth of Ecolab R&D staff and entomologists.

Broad solutions to protect your goods

Chemical and organic treatments for a broad range of goods, including specialized fumigation services for perishables, logs and lumber, pallets and wood packaging, BMSB and more.

inland and seaport centers
designed to support import/
export fumigation

Localized coverage
across the continental U.S.

Fumigation services for imports and exports

From container, to ship, to market, Ecolab provides comprehensive fumigation services that help you protect the quality and value of your commodities – while meeting strict import/export regulations to help shipments stay on schedule.

WE PROVIDE A FULL RANGE OF SPECIALIZED FUMIGATION SERVICES

SHIP FUMIGATION

Bulk grain onboard ship fumigation, including barge fumigation, recirculation method ship hold fumigation, or sub-surface fumigant application, as well as in-transit fumigation.

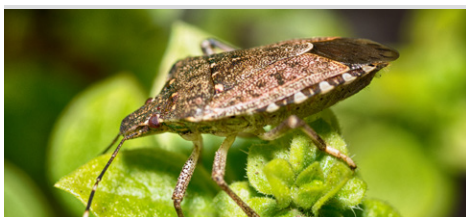

PERISHABLES FUMIGATION

Specialized fumigation within very narrow temperature ranges and with careful handling to get perishables to market without delay or damage and protect shelf life.

LOG/LUMBER FUMIGATION

Fumigation of logs or wood chips at port, working closely with USDA-APHIS officers to show compliance with international quarantine requirements, including obtaining phytosanitary certificate to ensure export logs are accepted at international ports of entry.

BROWN MARMORATED STINK BUG (BMSB)

Ecolab is a registered treatment provider approved by the Australian Department of Agriculture and the New Zealand Ministry for Primary Industries to perform BMSB fumigations.

DOMESTIC TRANSPORT FUMIGATION

Ecolab also provides fumigation for domestic transit, including truck fumigation, trailer fumigation, or fumigation of a commodity on rail cars.

WOOD PACKAGING MATERIAL FUMIGATION

Fumigation of pallets of produce or dry goods, using the most applicable fumigation technology to eliminate all types of pests – including providing ISPM15 certification for wood packaging material.

Lean on the strength of a fumigation leader
