Procedure Training

THE ECOLAB EVERYDAY DIFFERENCE

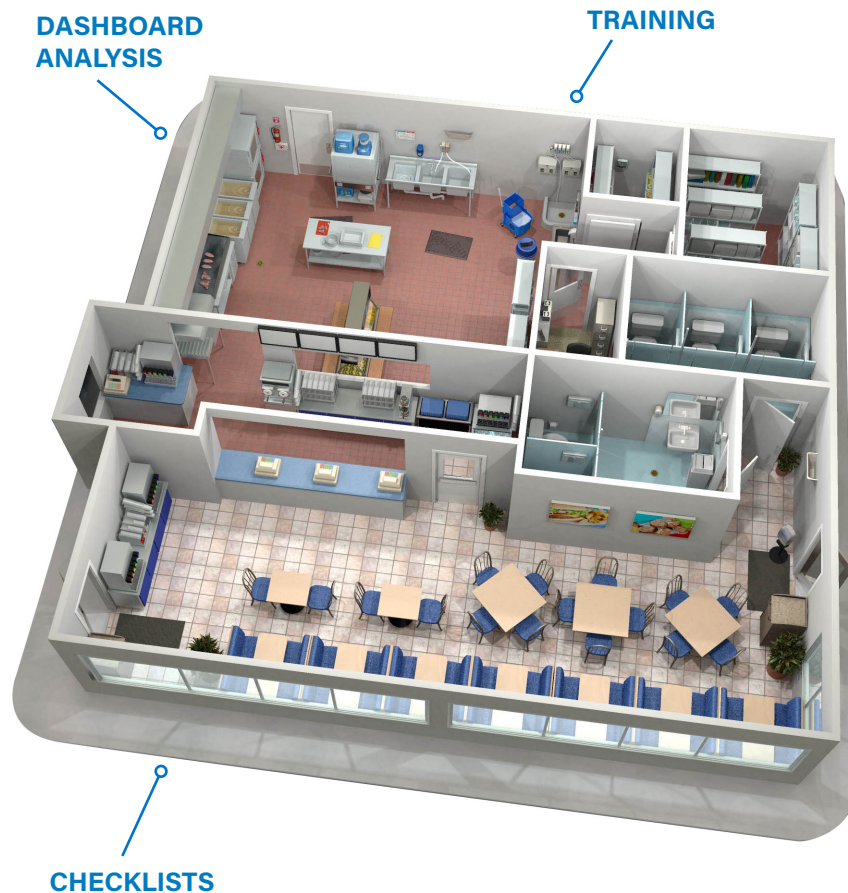

ECOLAB EVERYDAY offers a unique combination of data collection, and analysis, to provide a complete program designed to monitor food safety risk and assist with compliance across your organization.

It is an innovative, data-driven technology solution. Ecolab can analyze data from multiple sources and help you to predict risk and provide correction proactively.

ECOLAB[®] EVERYDAY[™]

Improve Visibility with Ecolab Food Safety Automation:
