

YOUR DEDICATED FUMIGATION EXPERTS

Specialty Pest Services
for **Logs/Lumber Export**

Ready to tackle any challenge

Ecolab Specialty Pest Services is a partner who has what it takes to solve your toughest pest problems.

Nationwide coverage

We provide fumigation services at major seaports and inland locations across the U.S. We handle all processes, obtain all licenses and permits, and apply proprietary and cutting-edge technologies for pest-free results.

Regulatory compliance

Whether your commodity is facing the quarantine regulations of imports or the foreign-country requirements of exports, Ecolab is fully registered, expertly trained, and uniquely experienced to provide compliant, effective fumigation.

ISPM compliant fumigation

Ecolab provides you with ISPM 15 certification for wood packaging material used in international trade. This is required to reduce the possibility for foreign pests to be introduced into new areas.

The nation's largest
fumigation provider

200+

Ecolab-employed and trained
fumigation specialists

40+

inland & seaport centers
designed to support
import/export fumigation

Localized coverage
across the continental U.S.

Specialized Service. Experienced Professionals.

Ecolab has an extensive history of working with the USDA, state and local regulators to provide our customers efficient and timely fumigation services. Trust our experienced fumigators to manage the logistics of moving cargo, document and prepare all international paperwork, and maintain your schedule at ports throughout the U.S.

Containerized or Bulk Capabilities

No matter how you are moving your logs, we have your fumigation covered. Our flexible chambers allow us to create the most optimal size whether your logs are packed in containers or stacked on the ground.

On-Vessel Wood Chips

Our Master Fumigators understand the importance of providing a Fumigation Management Plan (FMP) that adheres to USDA requirements and port of destination regulations. They meet with the ship's captain and designated crew members to review their responsibilities in the FMP once the ship leaves port.

FUMIGATION EXPERTISE FOR LOG EXPORT

With complete fumigation services designed for log export operations, we adhere to all regulatory, customer and third-party requirements to ensure the safety of your cargo and the protection of your brand. **Here's the approach we take to solving your challenges:**

Lean on the strength of a fumigation leader
