The Right Partner
in commercial laundry solutions

ECOLAB®

Your Success is Our Priority™

SHINE BRIGHTER with a cleaner clean

Sustainable, high-performing chemistry and reliable and accurate dispensing is key to cleaning right the first time.

- Quality wash products and programs consistently deliver clean, bright and stain-free linen, driving your guest satisfaction levels to the max
- Exclusive and innovative equipment helps avoid rewash by eliminating hair, lint and debris from the wash process
- Highly reliable and accurate, proprietary dispensing solutions consistently and cost effectively increase your plant productivity
- Stay ahead of environmental regulations with Ecolab's sustainably engineered portfolio of quality wash programs, designed to save water and energy, while minimizing your impact on the environment

PERFORM BETTER with integrated support

Ecolab is unmatched in the depth to which we collaborate and integrate our expertise and resources. This comprehensive approach allows us to deliver exceptional results at the lowest total cost of operation.

- Our people are experts at the art of application - at identifying opportunities and solutions, and ensuring those solutions perform at their peak
- Experienced teams in the areas of R&D, Support and Applications, Lab and Technical Service, Customer Support, Waste, Water and Energy and Dispensing provide deep technical and analytical laundry knowledge, supported by extensive industry know how, adding value to your expertise without adding to your headcount

PROFIT MORE with an optimized plant

Ecolab keeps a sharp focus on maximizing operational efficiencies and helps improve your plant performance to steer your business to success.

- State-of-the-art data management technology, enVision™, is designed specifically for commercial laundry operations to provide laundry managers with real-time visibility and actionable insights to deliver consistent quality, improve efficiency, and reduce costs
- Innovative equipment that reinvents the way you manage water and energy so you can do more with less
- Innovative, high quality wash products and programs designed to impact what matters; Textile Quality and Life, Productivity, Total Cost of Operations, Sustainability and Customer Satisfaction
