

**X-STATIC NEUTRAL SCENT**
**SECTION 1. PRODUCT AND COMPANY IDENTIFICATION**

Product name : X-STATIC NEUTRAL SCENT

Other means of identification : Not applicable

Recommended use : Laundry product

Restrictions on use : Reserved for industrial and professional use.

Product dilution information : Product is sold ready to use.

Company : Ecolab Inc.  
1 Ecolab Place  
St. Paul, Minnesota USA 55102  
1-800-352-5326

Emergency health information : 1-800-328-0026 (US/Canada), 1-651-222-5352 (outside US)

Issuing date : 04/20/2026

**SECTION 2. HAZARDS IDENTIFICATION**

**GHS classification in accordance with the OSHA Hazard Communication Standard (29 CFR 1910.1200)**

Serious eye damage : Category 1

**GHS label elements**

Hazard pictograms :

Signal Word : Danger

Hazard Statements : Causes serious eye damage.

Precautionary Statements : **Prevention:**  
Wear eye protection/ face protection.  
**Response:**  
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.  
Immediately call a POISON CENTER/ doctor.

Other hazards : None known.

**SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS**

Pure substance/mixture : Mixture

| Chemical name                           | CAS-No.                | Concentration (%) * |
|-----------------------------------------|------------------------|---------------------|
| octadecanamide, n,n'-1,2-ethanediylbis- | 110-30-5               | 15 - 40             |
| Di-C14-18 alkyl dimonium chloride       | 68002-58-4             | 10 - 30             |
| Diethylene Glycol                       | 111-46-6               | 1 - 5               |
| Fragrance ingredient                    | Proprietary Ingredient | 0.5 - 1.5           |

## SAFETY DATA SHEET

### X-STATIC NEUTRAL SCENT

\* Ranges if listed above for hazardous ingredient(s) are prescribed ranges. The actual concentration(s) or actual concentration range(s) are being withheld as a trade secret.

#### SECTION 4. FIRST AID MEASURES

|                                                             |                                                                                                                                                                                                   |
|-------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| In case of eye contact                                      | : Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately. |
| In case of skin contact                                     | : Rinse with plenty of water.                                                                                                                                                                     |
| If swallowed                                                | : Rinse mouth. Get medical attention if symptoms occur.                                                                                                                                           |
| If inhaled                                                  | : Remove to fresh air. Treat symptomatically. Get medical attention if symptoms occur.                                                                                                            |
| Protection of first-aiders                                  | : If potential for exposure exists refer to Section 8 for specific personal protective equipment.                                                                                                 |
| Notes to physician                                          | : Treat symptomatically.                                                                                                                                                                          |
| Most important symptoms and effects, both acute and delayed | : See Section 11 for more detailed information on health effects and symptoms.                                                                                                                    |

#### SECTION 5. FIRE-FIGHTING MEASURES

|                                                |                                                                                                                                                                                 |
|------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Suitable extinguishing media                   | : Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.                                                                       |
| Unsuitable extinguishing media                 | : None known.                                                                                                                                                                   |
| Specific hazards during fire fighting          | : Not flammable or combustible.                                                                                                                                                 |
| Hazardous combustion products                  | : Decomposition products may include the following materials:<br>Carbon oxides<br>Nitrogen oxides (NOx)<br>Sulfur oxides                                                        |
| Special protective equipment for fire-fighters | : Use personal protective equipment.                                                                                                                                            |
| Specific extinguishing methods                 | : Fire residues and contaminated fire extinguishing water must be disposed of in accordance with local regulations. In the event of fire and/or explosion do not breathe fumes. |

#### SECTION 6. ACCIDENTAL RELEASE MEASURES

|                                                                     |                                                                                                                                                                                                                                                                                                                                                                              |
|---------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Personal precautions, protective equipment and emergency procedures | : Ensure adequate ventilation. Keep people away from and upwind of spill/leak. Avoid inhalation, ingestion and contact with skin and eyes. When workers are facing concentrations above the exposure limit they must use appropriate certified respirators. Ensure clean-up is conducted by trained personnel only. Refer to protective measures listed in sections 7 and 8. |
| Environmental precautions                                           | : Do not allow contact with soil, surface or ground water.                                                                                                                                                                                                                                                                                                                   |

## SAFETY DATA SHEET

### X-STATIC NEUTRAL SCENT

Methods and materials for containment and cleaning up : Sweep up and shovel into suitable containers for disposal.

#### SECTION 7. HANDLING AND STORAGE

Advice on safe handling : Do not get in eyes, on skin, or on clothing. Wash hands thoroughly after handling. In case of mechanical malfunction, or if in contact with unknown dilution of product, wear full Personal Protective Equipment (PPE).

Conditions for safe storage : Keep out of reach of children. Store in suitable labeled containers.

Storage temperature : 0 °C to 50 °C

#### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

##### Ingredients with workplace control parameters

| Components                             | CAS-No.  | Form of exposure             | Permissible concentration | Basis     |
|----------------------------------------|----------|------------------------------|---------------------------|-----------|
| octadecanamide, n,n'-1,2-ethanediybis- | 110-30-5 | TWA<br>(Inhalable fraction)  | 10 mg/m <sup>3</sup>      | ACGIH     |
|                                        |          | TWA<br>(Respirable fraction) | 3 mg/m <sup>3</sup>       | ACGIH     |
| Diethylene Glycol                      | 111-46-6 | TWA                          | 10 mg/m <sup>3</sup>      | AIHA WEEL |

Engineering measures : Good general ventilation should be sufficient to control worker exposure to airborne contaminants.

##### Personal protective equipment

Eye protection : Due to the form and packaging of the product, no protective equipment is needed under normal use conditions.

Hand protection : No special protective equipment required.

Skin protection : No special protective equipment required.

Respiratory protection : No personal respiratory protective equipment normally required.

Hygiene measures : Handle in accordance with good industrial hygiene and safety practice. Wash face, hands and any exposed skin thoroughly after handling. Provide suitable facilities for quick drenching or flushing of the eyes and body in case of contact or splash hazard.

#### SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical State : Wax.  
Color : opaque, beige  
Odor : Perfumes, fragrances  
pH : 4.5 - 7.5, (1 %)

## SAFETY DATA SHEET

### X-STATIC NEUTRAL SCENT

|                                                            |                                                            |
|------------------------------------------------------------|------------------------------------------------------------|
| Flash point                                                | : Not applicable                                           |
| Odor Threshold                                             | : No data available                                        |
| Melting point/freezing point                               | : No data available                                        |
| Boiling point, initial boiling point and boiling range     | : No data available                                        |
| Evaporation rate                                           | : No data available                                        |
| Flammability                                               | : Not applicable                                           |
| Upper explosion limit                                      | : No data available                                        |
| Lower explosion limit                                      | : No data available                                        |
| Vapor pressure                                             | : No data available                                        |
| Relative vapor density                                     | : No data available                                        |
| Relative density                                           | : 1.0 - 1.4                                                |
| Density                                                    | : No data available                                        |
| Water solubility                                           | : insoluble                                                |
| Solubility in other solvents                               | : No data available                                        |
| Partition coefficient: n-octanol/water (logarithmic value) | : No data available                                        |
| Autoignition temperature                                   | : No data available                                        |
| Decomposition temperature                                  | : No data available                                        |
| Viscosity, kinematic                                       | : No data available                                        |
| Explosive properties                                       | : No data available                                        |
| Oxidizing properties                                       | : The substance or mixture is not classified as oxidizing. |
| Molecular weight                                           | : No data available                                        |
| VOC                                                        | : No data available                                        |
| Particle characteristics                                   | : No data available                                        |

### SECTION 10. STABILITY AND REACTIVITY

|                                                                                             |                                                               |
|---------------------------------------------------------------------------------------------|---------------------------------------------------------------|
| Reactivity                                                                                  | : No dangerous reaction known under conditions of normal use. |
| Chemical stability                                                                          | : Stable under normal conditions.                             |
| Possibility of hazardous reactions, including those associated with foreseeable emergencies | : No dangerous reaction known under conditions of normal use. |
| Conditions to avoid                                                                         | : None known.                                                 |
| Incompatible materials                                                                      | : None known.                                                 |
| Hazardous decomposition products                                                            | : In the event of fire, see Section 5                         |

### SECTION 11. TOXICOLOGICAL INFORMATION

|                                 |                             |
|---------------------------------|-----------------------------|
| Information on likely routes of | : Eye contact, Skin contact |
|---------------------------------|-----------------------------|

## SAFETY DATA SHEET

### X-STATIC NEUTRAL SCENT

exposure

#### Potential Health Effects

|                  |                                                               |
|------------------|---------------------------------------------------------------|
| Eyes             | : Causes serious eye damage.                                  |
| Skin             | : Health injuries are not known or expected under normal use. |
| Ingestion        | : Health injuries are not known or expected under normal use. |
| Inhalation       | : Health injuries are not known or expected under normal use. |
| Chronic Exposure | : Health injuries are not known or expected under normal use. |

#### Experience with human exposure

|              |                                  |
|--------------|----------------------------------|
| Eye contact  | : Redness, Pain, Corrosion       |
| Skin contact | : No symptoms known or expected. |
| Ingestion    | : No symptoms known or expected. |
| Inhalation   | : No symptoms known or expected. |

#### Toxicity

##### Product

## SECTION 12. ECOLOGICAL INFORMATION

#### Ecotoxicity

## SAFETY DATA SHEET

### X-STATIC NEUTRAL SCENT

Environmental Effects : Very toxic to aquatic life with long lasting effects.

#### Product

Toxicity to fish : No data available

Toxicity to daphnia and other aquatic invertebrates : No data available

Toxicity to algae : No data available

#### Components

Toxicity to fish : octadecanamide, n,n'-1,2-ethanediylbis-  
96 h LC50 Fish: > 0.027 mg/l

Di-C14-18 alkyl dimonium chloride  
96 h LC50 Lepomis macrochirus (Bluegill sunfish): 10.65 mg/l  
35 d NOEC Pimephales promelas: 0.027 mg/l

Diethylene Glycol  
96 h LC50 Pimephales promelas: 75,200 mg/l

#### Components

Toxicity to daphnia and other aquatic invertebrates : octadecanamide, n,n'-1,2-ethanediylbis-  
48 h EC50 Daphnia magna (Water flea): > 0.002 mg/l

Di-C14-18 alkyl dimonium chloride  
48 h EC50 Daphnia magna (Water flea): 1.55 mg/l

Diethylene Glycol  
24 h EC50 Daphnia magna (Water flea): > 10,000 mg/l

#### Components

Toxicity to algae : octadecanamide, n,n'-1,2-ethanediylbis-  
72 h EC50: > 0.053 mg/l

Di-C14-18 alkyl dimonium chloride  
5 d EC50 Pseudokirchneriella subcapitata (green algae): 0.03 mg/l

Diethylene Glycol  
96 h EC50: 9,362 mg/l

#### Persistence and degradability

Poorly biodegradable

#### Bioaccumulative potential

No data available

#### Mobility in soil

No data available

#### Other adverse effects

No data available

### SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods : Do not contaminate ponds, waterways or ditches with chemical or used container. Where possible recycling is preferred to disposal or incineration. If recycling is not practicable, dispose of in compliance

## SAFETY DATA SHEET

### X-STATIC NEUTRAL SCENT

with local regulations. Dispose of wastes in an approved waste disposal facility.

Disposal considerations : Dispose of as unused product. Empty containers should be taken to an approved waste handling site for recycling or disposal. Do not re-use empty containers. Dispose of in accordance with local, state, and federal regulations.

#### SECTION 14. TRANSPORT INFORMATION

The shipper/consignor/sender is responsible to ensure that the packaging, labeling, and markings are in compliance with the selected mode of transport.

##### Land transport (DOT)

Not dangerous goods

##### Sea transport (IMDG/IMO)

Not dangerous goods

#### SECTION 15. REGULATORY INFORMATION

##### EPCRA - Emergency Planning and Community Right-to-Know

###### CERCLA Reportable Quantity

This material does not contain any components with a CERCLA RQ.

###### SARA 304 Extremely Hazardous Substances Reportable Quantity

This material does not contain any components with a section 304 EHS RQ.

**SARA 311/312 Hazards** : Serious eye damage or eye irritation

**SARA 302** : This material does not contain any components with a section 302 EHS TPQ.

**SARA 313** : This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

##### California Prop. 65

This product does not contain any chemicals known to the State of California to cause cancer, birth, or any other reproductive defects.

##### California Cleaning Product Right to Know Act of 2017 (SB 258)

This regulation applies to this product.

| Hazardous ingredients                   | CAS-No.       | Function       | List(s)        |
|-----------------------------------------|---------------|----------------|----------------|
| octadecanamide, n,n'-1,2-ethanediylbis- | 110-30-5      | Antistatic     | Not Applicable |
| Di-C14-18 alkyl dimonium chloride       | 68002-58-4    | Antistatic     | Not Applicable |
| hexadecanamide, n,n'-1,2-ethanediylbis- | 5518-18-3     | Processing Aid | Not Applicable |
| Polyethylene wax                        | 9002-88-4     | Processing Aid | Not Applicable |
| Polyethylene wax                        | 68441-17-8    | Processing Aid | Not Applicable |
| Fragrance Ingredient(s)                 | Not Available | Fragrance      | Not Applicable |

The ingredients of this product are reported in the following inventories:

**United States TSCA Inventory :**

All substances listed as active on the TSCA inventory

**Canadian Domestic Substances List (DSL) :**

All components of this product are on the Canadian DSL

**Australia. Australian Industrial Chemicals Introduction Scheme (AICIS) :**

not determined

**New Zealand Inventory of Chemicals (NZIoC) :**

not determined

**Japan. ENCS - Existing and New Chemical Substances Inventory :**

not determined

**Korea. Korean Existing Chemicals Inventory (KECI) :**

Contains substance(s) not listed on the Korea Existing Chemicals Inventory.

**Philippines Inventory of Chemicals and Chemical Substances (PICCS) :**

not determined

**China. Inventory of Existing Chemical Substances in China (IECSC) :**

not determined

**Taiwan Chemical Substance Inventory (TCSI) :**

not determined

### SECTION 16. OTHER INFORMATION

**NFPA:**

**HMIS® IV / CED:**

|                 |     |
|-----------------|-----|
| HEALTH          | / 3 |
| FLAMMABILITY    | 0   |
| PHYSICAL HAZARD | 0   |

HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. The "\*" represents a chronic hazard, while the "/" represents the absence of a chronic hazard.
